I understand that I need to sell my game on other stores in a similar way to how I am selling my game on Steam. I agree that I am not giving Steam customers a worse deal.

I understand that while it's OK to run a discount on different stores at different times, I agree to give the same offer to Steam customers within a reasonable amount of time.

I understand that if I request an extreme number of keys and I'm not offering Steam customers a fair deal, or if my sole business is selling Steam keys and not offering value to Steam customers, my request may be denied and I may lose the privilege to request keys.
